Subject: RE: Meeting - this Saturday

Thanks for your response including Dehlvi Bhai, this will be fact finding meeting to understand what our BAC founding members are willing to do for the BAC. Basically, I have taken the opportunity to invite Dr. Satter, Leo and Manik (all of them are founding members) to participate. If BAC needs to be built then there will be lot of heat (sometime it will not be pleasant).

So, we can help each other to share information not just within the EB and AB but to all BAC donors - the BAC board can never be organized to disseminate information in timely manner if we do NOT take some interest in building the Center. We can always find mistake and complain but at the end of the day - let's be clear that the Center is a project of BAH. We need to resolve our differences and learn to respect others, try to forget and forgive mistakes, so that we can be a better person to lead the community work.

If we ought to complete the BAC project by 2010, then there will be lot of your time and commitment be demanded and lot of heated moments will arise, so help God.

PS:

BAC was paying \$186.00 every month for renting a septic tank, since it was unpaid for last 6-8 months the vendor has taken the septic tank away from BAC. So, BAC has bought a Septic Tank for \$186.00 (+ shipping), which was delivered today and need to be installed this weekend. So, please let people know - NOT to use the bathroom this weekend.

BAC will be saving the recurring monthly cost of \$186.00 from now.

BAC does not have any income at this point - so I would like to cancel the Trash Pickup (this will provide a saving of \$65.00 monthly recurring cost).

Note: Once I confirmed the meeting time and place with Dr. Hannan Khan - then I will inform the venue over the phone.
